

## Fire Safety Education.

### SMOKING FIRE SAFETY

Smoking is a leading cause of fire deaths. Learn to be a responsible smoker. Put it out. All the way. Every time. Putting a cigarette out in a pail with sand. The improper use and disposal of smoking materials (of all kinds) is the leading cause of fire deaths in Massachusetts. Smoking fires can smolder undetected for a long time before bursting into flames whether it is on a bed, in a sofa, or a pile of mulch. Be a responsible smoker and put out smoking materials completely and safely. Every time.

### GRILLING SAFETY

Every year, grilling fires cause injuries and property damage. Learn to grill safely.

Many people enjoy barbecuing in the summer months. But when grills are not used safely, things can go horribly wrong. Every year, fire departments respond to hundreds of fires involving grills, hibachis, and barbecues. These fires cause injuries and property damage. For safe grilling, always follow your owner's manual and practice the safety tips provided here.

## OPEN BURNING & FIRE PIT RESTRICTIONS

Open burning including the use of firepits is not allowed in the City of Lawrence in accordance with the MassDEP open burning regulation. Open burning does not include burning conducted through a stack, chimney, duct, or pipe or burning conducted primarily for cooking.

[Click here for more information about open burning.](#)

## FIREWORKS ARE ILLEGAL

Fireworks are illegal in Massachusetts because they are dangerous. There have been 979 fires and explosions involving illegal fireworks in Massachusetts in the past 10 years. These incidents caused dozens of injuries to firefighters and civilians, along with millions of dollars in damages.

All fireworks are illegal in Massachusetts for private residents. Massachusetts law prohibits the possession, use, and sale of fireworks by unlicensed individuals, even if you buy them legally in another state.

## NIGHT CLUBS, CROWD MANAGER REGULATIONS, AND TRAINING PROGRAM

Every Massachusetts nightclub, dance hall, **discothèque** or bar must have at least one Crowd Manager. The 2003 Rhode Island Station Nightclub fire killed 100 people and injured 230. After the tragedy, Massachusetts passed new fire safety rules for nightclubs, dance halls, **discothèques**, and bars. One change that improved nightclub safety is the rule that a trained crowd manager be on duty when nightclubs are open.
